

Carmen D'Ascenzo
Mechanical Manufacturing

Personal Profile: After Cass, I graduated from Wayne State in 1964. I searched for something of interest apart from the "norm" (children, grandchildren, etc.). In the insurance business my sales production qualified me for many trips abroad. My wife, Nancy, and I visited many countries, but two experiences come to mind as real highlights:

1. We were in Beijing in May of 1989 when the Chinese government declared martial law. We walked on the Great Wall; but our visit to Tiananmen Square was off canceled.
2. We spent a week in the Amazon Jungle on a visit to Manaus, Brazil in 1988.

Thanks,

Carmen
